Education

Rajarambapu Institute Of Technology Master of Computer Application GPA: 8.38	Rajaramnagar 2026
SMT Kusturbai Collage Of Arts and Science Bachelor Of Computer Science (Entire) GPA: 9.06	Sangli 2025

Hostel Connect Description: Developed a Java Full Stack web application to automate hostel operations, including student registration, room allocation, complaint management, visitor tracking, and administrative workflows. Key Contributions: Developed REST APIs, implemented authentication, integrated MySQL database, and built responsive user interfaces. Technologies Used: Java, Spring Boot, Spring MVC, Hibernate/JPA, MySQL, HTML, CSS, JavaScript, Bootstrap, Git	(November 2025 - January 202)
--	-------------------------------

LIFE – Smart Healthcare Platform Description: Built a healthcare platform to streamline patient management, appointment scheduling, doctor interactions, feedback collection, alerts, and secure online payment processing. Key Contributions: Developed CRUD modules, integrated SQL Server using Entity Framework Core, implemented authentication and payment gateway, and designed responsive dashboards for multiple user roles. Technologies Used: ASP.NET Core MVC, C#, Entity Framework Core, SQL Server, HTML, CSS, JavaScript, Bootstrap	(March 2025 - May 2025)
--	-------------------------

FurniFlow – Furniture Manufacturing & Inventory Platform Description: Developed an enterprise application to optimize furniture manufacturing by managing inventory, suppliers, production workflows, employee records, and billing operations. Key Contributions: Designed the database, automated business workflows, and implemented reporting modules. Technologies Used: ASP.NET, C#, ADO.NET, MySQL, Crystal Reports, HTML, CSS, Bootstrap	(June 2024 - January 2025)
--	----------------------------

Certification

Advanced Java Programming (Spring Boot & Microservices) Description: Completed advanced training in enterprise Java development using Spring Boot, Microservices, and RESTful web services. Technologies Used: Java, Spring Boot, Spring MVC, Microservices, REST APIs, Maven, MySQL	(March 2026)
Learning Java 11 (LinkedIn Learning) Description: Learned modern Java 11 concepts, object-oriented programming, collections, streams, and functional programming techniques. Technologies Used: Java 11, OOP, Collections Framework, Streams API, Lambda Expressions	(January 2025)

Additional

Technical Skills: Java, Spring Boot, Hibernate/JPA, SQL, MySQL, HTML, CSS, JavaScript, Bootstrap, Git, GitHub, REST APIs
Academic Achievements: BCS CGPA **9.06** | Developed 3 Full-Stack Projects | Certified in Java & Spring Boot
Leadership & Volunteer Experience: Contributed to campus recruitment initiatives as a **RR (Rise & Recruit) Placement Club** member and led the development of the departmental fest website while hosting a technical game.
